Accepted 25 November 2023

We are writing to inform you of an exciting change for our journal. As of 2024, Periódico Tchê Química will be published by the Araucária Scientific Association (*Associação Científica Araucária - acaria.org*).

Periódico Tchê Química was initiated by the Tchê Química Group (2004) and later acquired by Dr. D. Scientific Consulting (2020). We are grateful to our previous publishers for their support over the years.

We are now excited to begin a new chapter in the journal's history with the Araucária Scientific Association. The Araucária Scientific Association is a new publisher of scientific journals in Brazil, and it is an association committed to sustainable development. We are confident that this partnership will help us to take Periódico Tchê Química to the next level.

As part of the Araucária Scientific Association, the Periódico Tchê Química will become part of a larger network of scientific journals, giving us access to a wider range of resources and expertise. This will allow us to publish more high-quality research, to reach a larger audience, and to have a greater impact on the fields of science.

We are also excited to be part of Araucária Scientific Association's vision for scientific publishing's future. The Association is committed to open-access publishing and to making scientific knowledge accessible to everyone. We share this commitment, and we believe that joining the Association will help us to make Periódico Tchê Química even more accessible to researchers and the public alike. We are also proud to be a content provider to the Araucária Scientific Association newsletter, freely available at <https://www.acaria.org/archive.php>. This newsletter is a valuable resource for scientists and the public alike, and we are pleased to play a role in its dissemination. We encourage you to subscribe to the newsletter today to stay up-to-date on the latest news and developments in the field of science.

We are confident that this change is a step into the future for Periódico Tchê Química. We are committed to continuing to publish high-quality research in the chemistry field and making the journal accessible to everyone. We look forward to working with ACARIA to achieve these goals.

Thank you for your continued support.

Sincerely,

Ketevan Kupatadze Editor-in-Chief, Periódico Tchê Química.

Shaima Rabeea Banoon Editor-in-Chief, Periódico Tchê Química.

Luis Managing-Editor, Periódico Tchê Química.
