

## NOTA AOS AUTORES IRQUIANOS

## NOTE FOR THE IRAQUI AUTHORES

**Subject:** Informations to Iraqi Authors from Periodico Tchê Química

Dear Esteemed Iraqi Authors,

Greetings from Periodico Tchê Química!

We are pleased to extend our warm regards and invite you to partake in our commitment to the dissemination of scientific knowledge. As a testament to this dedication, we are delighted to inform you that Periodico Tchê Química has pledged to publish papers presented at the **10th International Conference on Applied Science and Technology**, organized by **Kerbala University**. Furthermore, we are equally thrilled to announce our collaboration with the **Southern Journal of Sciences** to publish manuscripts from the **Second Science Conference**, hosted by the **Uniresity of Mendoza – Argentina** and the **University of Vassouras - Brazil**.

We understand the importance of accessibility in the realm of scientific publication. Hence, we are proud to inform you that the publication costs associated with these endeavors will be borne entirely by our journals, alleviating any financial burden on the participants' side.

In our endeavor to uphold the ethos of inclusivity and equitable representation, we aim to keep our journal pages accessible to authors from all countries. Consequently, until the publication process for the aforementioned manuscripts is complete—a task that may take some time—we regret to inform you that we will not be accepting additional manuscripts from Iraq. However, this provision is extended with an exception to Iraq universities that have established longstanding collaborations with our journal over the years.

We express our deepest gratitude for your understanding and cooperation in this matter. We sincerely hope that this measure will contribute to maintaining the integrity and quality of our journal publications, while also fostering a conducive environment for academic exchange.

We eagerly anticipate the active participation of Iraqi authors in the conferences where we extend our support for the dissemination of scientific information. Your valuable contributions are integral to our collective pursuit of advancing knowledge and fostering collaboration in the scientific community.

Thank you very much for your attention, and we eagerly await the opportunity to engage with you further.

Warm regards,

Ketevan Kupatadze, Ph.D, Georgia, Ilia State University. Editor-in-chief.

Shaima R. Banoon, MsC, Iraq, University of Misan. Editor-in-chief.

Luis Alcides Brandini De Boni, General Secretary.
